

Dear students, residents and faculty

We are requesting your participation in this Teaching Scholars Program research project. This project is being conducted in partial fulfillment of the Teaching Scholars Program requirements and has been reviewed and acknowledged by the West Virginia University Institutional Review Board. The purpose of this research is to determine if and when there is a change in care perspectives about recoverability during the educational career of health sciences students. We plan to survey students, residents and faculty in the Schools of Medicine, Nursing, Occupational and Physical Therapy.

All information will be kept anonymous and confidential, and participation is completely voluntary. We encourage your participation; however, you have the right to not complete the survey. We encourage you to answer as many questions as possible with as much accuracy as possible, however, you have the right to refuse answering any of questions that you do not want to answer. The questionnaire should take approximately 15 minutes to complete. Your time and response is greatly appreciated!

Directions:

1. Complete the survey online by connecting to the following link:

<https://redcap.wvctsi.org/redcap/surveys/?s=JH4D8NWX4A>

If you have concerns or any other questions that may arise from participation in this study, please contact Amy Burt at WVU Occupational Therapy at 304-581-1972. There is a small chance of experiencing emotional distress during this survey. If so, please contact Dr. Carl Grey (304-293-1121) or Faculty and Staff Assistance Program for residents and faculty (304-293-5590), or the Carruth Center (304-293-4431) for students.

With Kind Regards,

**Sohyun Boo, MD** Assistant Professor of Neuroradiology

**Carl Grey, MD** Assistant Professor of Internal Medicine

**Amy Burt, OTR/L** Assistant Professor of Occupational Therapy

**Matthew Smith, MD** Assistant Professor of Neurology

**Cara Sedney, MD** Assistant Professor of Neurosurgery
