OVERVIEW

As you continue your medical education, we can help you lessen your financial burden, plus provide you an opportunity to work with some of the top medical professionals in your area of concentration.

BENEFITS

During your residency, you may be eligible to earn a monthly living expense of more than \$2,000 through the Army Reserve's Specialized Training Assistance Program (STRAP). To qualify for STRAP, you must meet the qualifications to become a U.S. Army Reserve officer, you must be a citizen of the United States and your student loans must not be in default.

In addition to STRAP, you may also be eligible to receive up to \$250,000 to repay educational loans or up to a \$75,000 bonus.

Upon completion of your specialized training and entry into the Army Reserve, you will be a commissioned officer. You'll work as a member of a professional team in state-of-the-art facilities (usually close to home, but ready to serve if needed). Participants incur a two-year obligation in the Army Reserve for each year or partial year of financial assistance. You'll also enjoy the following benefits:

- * Networking
- * Change of pace
- * Low-cost life and dental insurance
- * Rank and privileges of an Army officer
- * Opportunities to travel across the United States and around the world
- * Attractive retirement benefits at age 60 with 20 years of qualifying service
- * Flexible, portable retirement savings and investment plan (similar to a 401K)
- * Opportunities to attend paid continuing education courses, seminars and conferences
- * Shopping privileges at the Commissary (grocery store) and Post Exchange (department store)
