

ATTENDINGS **CELL Numbers**

Federico Seifarth, MD – Chief	406-407-1345
Patrick Bonasso, MD	304-203-5524
Joseph Drews, MD	248-505-9586
Leah Wehrli, MD	720-244-7859

ADVANCED PRACTICE PROVIDERS

Susan Neptune, NP	304-692-3704
Alycia Perrine, PA	301-616-0144
Maxy Powers, PA	304-685-0036
Kristen Wigal, NP	304-282-8278

USEFUL PHONE NUMBERS

Alycia Perrine	132129
Maxy Perrine	132081
Peds Acute (9th floor)	138531
NICU (7th floor)	138525
PICU (6th floor)	138520
OR Front Desk	138510
OR Charge RN	681-867-9200
OR Charge Anesthesia	137337
Children's ED	138507
House Supervisor	304-554-8522
Neurosurgery resident	75397
Ortho resident	78615
Anesthesia resident	78663
Injury prevention	133257
PT/OT	133412

CONFERENCES

- **Monday mornings at 8 am** - in HSC ED conference room.
- **Wednesday 7 am M&M, Grand Rounds, etc.** - with general surgery faculty. Please roll pager over to APP's pager (Alycia or Maxy) during this time for coverage.

TIPS FOR SERVICE

- Helpful note templates:

Useful Note Templates:	Description:
<u>.AMPPEDSURGHANDP</u>	Template for H&P
<u>.AMPPEDSURGCONSULTINITIAL</u>	Template for Initial Consult Note
<u>.AMPDAILYPEDESURGPRESSNOTE</u>	Template for daily progress/consult notes
<u>.AMPPEOPHANDPUPDATE</u>	Template for updated H&P morning of surgery
<u>.AMPTRAUMATERTIARY</u>	Template for Trauma Tertiary Exam Note
SmartText: TES ADMISSION H&P	Trauma H&P Template
SmartText: TES Consult	Trauma Consult Template
<u>.AMPCCOLLARCLEARANCE</u>	Note indicating C-collar clearance and what criteria was met

- When discharging patients, be sure to include:
 - Outpatient surgery: use **.AMPDISCHARGEGENERAL**
 - Orders for new medications or refills of old meds if appropriate
 - Activity Restrictions
 - Diet restrictions
 - School/Work Excuse
 - Follow up appointment order

Trauma Clinic

WEDNESDAY

No scheduled OR

Dr. Bonasso Clinic

THURSDAY

OR day

Dr. Wehrli Clinic

Trauma Clinic

FRIDAY

APP Clinic

OR day

Saturday/Sunday

Trauma Conference sign out at 8 am in Trauma Administration Suite on 4th floor of Ruby

• Helpful order sets:

Useful Order Sets:	Description:
ED TRAUMA: PEDS P1 ORDERS (PART B)	Resident/physician orders for P1 trauma
ED TRAUMA: PEDS P2 ORDERS (PART B)	Resident/Physician orders for P2 trauma
ED TRAUMA: XR ORDERS RUE, LUE, RLE, LLE	Scout XR orders for trauma patient
PEDS SURGERY: ADMIT TRAUMA	Admission orders for trauma patient
PEDS SURGERY: ADMIT: IP	Admission orders for pediatric surgery patient
PEDS SURGERY: Gastrografin Challenge Test	Orders for Gastrografin Challenge in patient with suspected bowel obstruction
PEDS SURGERY: NUSS PROCEDURE POSTOP	Post-op orders for patients s/p Nuss procedure
PEDS SURGERY: Pyloric Stenosis <u>PostOp</u>	Pre-Op orders for pyloric stenosis
PEDS SURGERY: Pyloric Stenosis <u>PreOp</u>	Post-Op orders for pyloric stenosis
PEDS SURGERY: Appendicitis <u>Nonop/Preop</u>	Non-Op/Pre-op orders for appendicitis
PEDS SURGERY: Appendicitis Postop	Post-Op orders for appendicitis
PEDS SURGERY: OVARIAN MASS TUMOR MARKERS	Tumor marker orders in patient with ovarian mass
RUBY: PEDS SURGERY: DISCHARGE ORDERSET	Comprehensive discharge order set (should be utilized on ALL patients being discharged!)

- Alycia Perrine or Maxy Powers will sit down with you within the first couple of days to help you get familiar with the service.
- Our algorithms and protocols are on Med Compass and google drive.
- When discharging a pediatric patient use the Ped Surg discharge order set. Specify the attending and that will get the patient into pediatric clinic.
- Do not order PO or IV narcotic medications for a pediatric patient unless discussed with chief resident or staff.
- Be careful with pediatric dosing of medications. There are some auto-populated dosages in the EMR, but if you're ever unsure ask a chief or pharmacy.
- TPN needs to be ordered or renewed by 14:00 each day, call dietary, pharmacy or go through EPIC to renew TPN.
- Make sure the same day surgery patients have an H&P update (if original was written within 30 days) or a new H&P (if >30 days since original H&P)

ROUNDING

- Floor rounding tips
 - Rounds typically start around 8:30 AM, ORs permitting
 - Beginning of floor rounds will be announced overhead for nurses to join.
- NICU rounding tips
 - You MUST wash your hands with soap and water before entering each separate NICU pod
 - Remove jackets, roll-up sleeves and remove all jewelry, watches, etc.
 - You must use hand sanitizer between all patients (everywhere, but especially NICU)
 - Same considerations apply to recently consoled or swaddled NICU babies, do not disturb (the NICU nurses will be very unhappy) UNLESS there is an acute, life-threatening pediatric surgery problem that needs to be addressed.
- PICU rounding tips
 - Try to have face to face communication with the PICU team regarding plans to limit communication problems and resolve any differences in management.
 - Patients with severe TBI admitted to the PICU will get full TBI rounds (specifically including PICU, Peds Surgery Team, and Peds Neurosurgery Team) for at least the first 5 days of care during their admission.

CONSULTS

- Consults should be completed as soon as possible and MUST be completed within 24 hours of the consult order being placed.
- Be sure to use the appropriate NAT protocols when consulted for abuse work up. These protocols can be found on the Med Compass App or on Connect in the Pediatric Trauma Handbook.
- All NAT consults are handled by the Peds Surgery Team Thursday evening until Sunday evening. However, there is a Child Safety Team who should handle NAT consults admitted to the floor Monday through Thursday afternoon. The Peds Surgery team should be consulted for ANY patient with a concern for NAT that is admitted to the PICU.
